| <b>2.</b>                     | <b><u>BRIEF DESCRIPTION</u></b>             | <p>By implementing the Global Positioning System (GPS), TIMSA will be able to improve operational control and efficiency for all BU's equipment as part of its ongoing adoption of new technologies. Additionally, with the integration of the new TOS VERONICA system, the GPS will allow TIMSA to enhance the control of the job assignment of our container handling equipment, guaranteeing the safety and day-to-day flow of operation as well as the optimization of resources by reducing fuel and electric consumption.</p> <p>The new GPS will allow TIMSA to manage the equipment's battery, track the vehicle in real time, and perform other functions, such as providing information about the location and speed of the equipment; this device will be installed in MHCs, RTGs, reach stackers, empty handlers, internal tractors, and internal vehicles for internal controls and data.</p>                                                                                                                                            |  |  |             |                     |     |     |                       |  |     |                               |  |   |                   |     |     |                  |           |    |

| <b>4.</b>                     | <b><u>TENDER SUMMARY</u></b>                | <p>For the execution of this project three (3) qualified and expert companies were invited to tender on April 17th, 2025. all invited companies accepted the invitation to participate and submitted their proposals on eSAC digital platform. The tender process fully complied Hutchison Ports policies, please refer to the Executive Summary for further details.</p> <p>An analysis and review of the tender submissions was carried out by TIMSA, and it was concluded that the three companies presented well-structured proposals that are economically competitive and fulfilled the technical requirements established by TIMSA.</p> <p>After tender analysis, the bid submitted by <b>Helgen Technologies LTD (HELGEN)</b> was found to be the lowest priced compliant tender. As such, TIMSA recommends awarding the contract to <b>Helgen Technologies LTD (HELGEN)</b>.</p> <p>Therefore, Capital Expenditure authorization is requested for an amount not exceeding <b>USD \$131,607.30</b> including <b>10%</b> of contingencies.</p> |  |  |             |                     |     |     |                       |  |     |                               |  |   |                   |     |     |                  |           |    |

**HUTCHISON PORTS TIMSA  
TERMINAL INTERNACIONAL DE MANZANILLO, S.A. DE C.V. ("TIMSA")  
"ACQUISITION OF GPS FOR MOVEMENT OPTIMIZATION IN VERONICA"  
EXECUTIVE SUMMARY**

**1. INTRODUCTION AND PROJECT DESCRIPTION.**

By implementing the Global Positioning System (GPS), TIMSA will be able to improve operational control and efficiency for all BU's equipment as part of its ongoing adoption of new technologies. Additionally, with the integration of the new TOS VERONICA system, the GPS will allow TIMSA to enhance the control of the job assignment of our container handling equipment, guaranteeing the safety and day-to-day flow of operation as well as the optimization of resources by reducing fuel and electric consumption.

The new GPS will allow TIMSA to manage the equipment's battery, track the vehicle in real time, and perform other functions, such as providing information about the location and speed of the equipment; this device will be installed in MHCs, RTGs, reach stackers, empty handlers, internal tractors, and internal vehicles for internal controls and data.

**2. SCOPE OF WORKS**

The work consists of the supply, installation, and commissioning of a platform for operational control through a network of 70 antennas and Global Positioning System (GPS) equipment.

**3. TENDER PROCESS**

**a) Invitation to tender**

For the execution of this project three (3) qualified and expert companies were invited to tender on April 17<sup>th</sup>, 2025. The three (3) qualified companies were:

- Helgen Technologies LTD (HELGEN)
- Autosise, Automatización y Sistemas De Seguridad, S.A. de C.V. (AUTOSISE)
- Dattainc Asesoría y Desarrollo, S.A. de C.V. (DATTAINC)

All invited companies accepted the invitation to participate.

**b) Tender Documents**

All tender documents were prepared internally by TIMSA, covering the technical & functional requirements and were issued to all invited companies on June 19<sup>th</sup>, 2025.

**c) Tender Notifications, Clarifications and Amendments**

During the tender process, there were no tender notifications, clarifications and amendments.

**d) Tender Submission**

The three (3) companies submitted their proposals on eSAC digital platform as scheduled, then were opened by TIMSA's Tender Opening Committee on June 21st, 2025. (Attached Annexure 1).

All the proposals received were found technically and economically acceptable and fulfilled the tender process and technical requirements established by TIMSA.

The Tender prices at opening were as indicated in Table 1 below:

*Table 1 – Tender Prices at Opening*

| <b>Tenderer</b> | <b>Amount<br/>USD</b> |
|-----------------|-----------------------|
| HELGEN          | \$ 119,643.00         |
| AUTOSISE        | \$ 156,888.67         |
| DATTAINC        | \$ 164,086.79         |

Tender proposals were received in US Dollars (USD).

**e) Tender Review**

An analysis and review of the tender submissions was carried out by TIMSA, and it was concluded that the three companies presented well-structured proposals that are economically competitive and fulfilled the technical requirements established by TIMSA. However, **Helgen Technologies LTD (HELGEN)** presented the lowest total cost.

**f) Recommendation**

After tender analysis, the bid submitted by **Helgen Technologies LTD (HELGEN)** was found to be the lowest priced compliant tender. As such, TIMSA recommends awarding the contract to **Helgen Technologies LTD (HELGEN)** for the execution of the works for USD 119,643.00. Their offer is valid until September 2<sup>nd</sup>, 2025.

**4. CAPEX AUTHORIZATION REQUEST**

Therefore, capital expenditure authorization is requested for the amount not exceeding USD 131,607.30, including an allowance of 10% USD 11,964.30 for contingencies as shown on Table 2.

**5. CAPEX BUDGET**

The amount considered on the CAPEX Budget 2025 is as follows:

*Table 2 – CAPEX Cost Breakdown*

| <b>Budget ANCILLARY PLANT &amp; WORKSHOP EQUIPMENT</b> | <b>2025</b>   |
|--------------------------------------------------------|---------------|
| Budgeted amount                                        | <b>\$ 200</b> |
| Approved to date                                       | <b>\$ 0</b>   |
| Amount requested                                       | <b>\$ 132</b> |
| Amount remaining                                       | <b>\$ 68</b>  |
